

# PRODUCT INFORMATION SHEET-MSDS

## ANTIMICROBIAL HAND SANITIZER

This product is formulated to kill germs instantly without soap and water. This product is ideal for restaurants, health care workers, hospital surgical teams, public employees, public restrooms, etc. It works instantly, evaporates quickly and leaves no residue, making it perfect for use in healthcare, schools, food service and other public areas to help control the spread of infection.

### USES:

- Restaurants – Kitchens / Food Prep Areas
- Hospitals – nursing stations, patient rooms
- Physician's offices, dental offices, and clinics
- Groceries – deli and meat departments
- Schools and day care centers
- Veterinarian offices

### BENEFITS

- Contains 62% denatured (ethyl) alcohol for rapid, broad-spectrum germ kill.
- Fresh scent with no residual odor encourages frequent use.
- Leaves no sticky residue on the skin; evaporates completely.

### INGREDIENTS:

Denatured Alcohol, water, Triethanolamine, Carbomer 940.

### AVAILABLE IN

400 mL – 12 / Case  
800 mL – 12 / Case

### DIRECTIONS FOR USE

Apply a dime-sized amount of sanitizer on clean, dry hands. Rub lightly into hands. Let hands air dry. Note: Hands must be rinsed prior to direct contact with food in food handling establishments.
